A. Purpose

The information relative to the place of performance and owner of plant or facility, if other than the prospective contractor, is a basic requirement when contracting for supplies or services (including construction). A prospective contractor must affirmatively demonstrate its responsibility. Hence, the Government must be apprised of this information prior to award. The contracting officer must know the place of performance and the owner of the plant or facility to (1) determine bidder responsibility; (2) determine price reasonableness; (3) conduct plant or source inspections; and (4) determine whether the prospective contractor is a manufacturer or a regular dealer.

The information is used to determine the prospective contractor's eligibility for awards and to assure proper preparation of the contract. Prospective contractors are only required to submit place of performance information on an exceptional basis; that is, whenever the place of performance for a specific solicitation is different from the address of the prospective contractor as indicated in the proposal. A notice was published in the *Federal Register* at 82 FR 51257 on November 3, 2017. No comments were received.

B. Annual Reporting Burden

Time required to read, prepare, and record information is estimated at 2.73 minutes per completion. The 1,960,218 actions will be used as the new basis for total annual responses.
